

**ONE NIGHT
ONLY FOR THE
SENSES**

A LETTER FROM THE FOUNDER

Hey there,

I pray all is well. I'm reaching out to share an exciting opportunity for local creatives, community organizations, and small businesses to partner with us for a new immersive community series: "One Night Only for the Senses" presented by the Don in Heels.

This five-part activation series explores the senses through art, creativity, and community connection. Each event highlights one sense and a corresponding artistic discipline, building toward a final experience that brings all five senses together. We want people to vibe and have a beautiful time, but beyond that the purpose is to build genuine relationships, expand our community, celebrate culture and arts, and be good to our nervous systems. There is power within our gifts, so let's steward them well and do this thing called life together.

Here's the One Night Only for the Senses Vol. 1 lineup:

- Sound + Music
- Smell + Craft & Aromatherapy
- Touch + Dance/Physical Art
- Sight + Visual Arts
- Taste + Culinary Arts

Sound Vol. 1 kicks off August 28th at Detroit Sip, focusing on sound and featuring music as the central art form. We will showcase local artists and leave an opportunity for guests to hop on the mic.

We are collaborating with partners who want to showcase their gifts, products, or services while engaging with the community in a meaningful, creative way. Each event will take place in a different venue to emphasize the impact of broadening community. Whether artists, makers, performers, small business owners, or community leaders, there's space for our neighbors in this series.

I am seeking partners to enhance the impact of this series. This vision doesn't stop this year, the plan is for this series to recur annually and leave a lasting, beautiful legacy on our community.

Looking forward to building something unforgettable together.

Best,
K.T. Braxton
The Don in Heels

ABOUT THE FOUNDER | MEET THE DON

K.T. Braxton is a Detroit native, serial Kingdompreneur, preacher, community builder, and authoress. She earned her BBA at Eastern Michigan University and MBA at Wayne State University. She is currently in law school to be the self-proclaimed Lincoln Lawyer of Detroit. She self-published her first book, *The Don in Heels: the Inner Thoughts of thee Minnie Mogul*, in 2024 - a memoir-ish novel loosely based on her life with imaginative creative license. This book begs the question "If life doesn't turn out how you plan, will you be ok?" It pushes the reader to answer honestly.

She is as layered as her famous honey butter biscuits. She is the CEO + Founder of Braxton Management, Kenny's 622 Trowbridge, and the Don in Heels Inc. Additionally, throughout her career she has conducted facilitation with youth and adults in topics ranging from holistic leadership, financial literacy, business basics, and career building. Some populations she has served have included differently abled and returning citizens. She has mentored youth within her community and has always emphasized the importance of literacy. Her mother taught her young that "you cannot change the rules if you cannot read the rules." Her father taught her to be relentless.

What some don't know is that she holds an affinity for the arts, especially music and culinary arts. She is reconnecting with her voice and love for singing while building community.

Fun fact: She sang at the grand opening of Detroit Sip.
